Greetings from Mother Lode Coffee Roasting Company!

Grab people's attention with a custom label of your school colors on a bag of high-quality, locally roasted coffee. This is a great product with the potential for huge returns, generating funds for school activities such as art programs, sports, field trips or building projects. As most schools have a need for extra funding your campus can't lose with this original, colorful, high profit fundraiser. Or gear up for the holidays with our "Holiday Coffee Fundraiser", during the season for giving, allow your school to benefit from offering this high-quality, local product to the families and friends of your students. Small-batch roasted, hand bagged and beautifully packaged, these bags are a special gift to all that receive them.

Allow students to get involved and connect with their community with this custom product that sells itself. In a culture of coffee drinkers this is progressive way to reach a wide audience, by offering them a product they most likely already purchase, and would be happy to purchase through the student body in order to support the kids. If you are looking for a new, exciting fund raiser for your school please don't hesitate to contact us so we can discuss your custom label and the details of your project. We would love to be involved in the positive experience of helping students have more great opportunities on campus this school year.

Thank you,

Andrew Riehl
